Carrera UK Limited Cookie Policy

Cookies

Cookies are text files containing small amounts of information which are downloaded to your device when you visit a website. Cookies are then sent back to the originating website on each subsequent visit, or to another website that recognises that cookie. Cookies are useful because they allow a website to recognise a user's device.

You can find more information about cookies at:

- www.allaboutcookies.org

Cookies do lots of different jobs, like letting you navigate between pages efficiently, remembering your preferences, and generally improve the user experience. They can also help to ensure that adverts you see online are more relevant to you and your interests. The cookies used on this website have been categorised based on the categories found in the ICC UK Cookie guide. A list of all the cookies used on this website by category is set out below.

Strictly necessary cookies

These are all the cookies without which the website could not perform basic functions. They may be set automatically when pages load, or as a result of a user request that cannot be fulfilled without the use of the cookie. Generally these are session cookies that expire on closing the browser but not always.

Performance cookies

These cookies are used to provide site owners with statistical information about their site – which is generally used for performance measurement and improvement. This is generally also known as 'Analytics'. It includes activities like counting page visits, dwell time, bounce rates, technologies used to access the site, and page load speeds.

Functionality cookies

These cookies are generally there to support site functionality that is visible or advantageous to the user or their experience of the site. This includes elements of persistent personalisation (remembered on subsequent visits), and enhanced functionality like web chat services, surveys, commenting and rating systems, and user preferences. They are generally a mix of first and third party, session and persistent cookies.

Targeting cookies

These types of cookies are set by digital advertising businesses for the prime or sole purpose of managing the performance of adverts, displaying adverts, and/or building user profiles to determine the display of adverts elsewhere.

Opt-out of using these cookies

You can refuse, accept or remove cookies at any time by using the settings on your internet browser. You can configure your internet browser to warn you each time a new cookie is about to be stored on your computer so that you can decide whether to accept or reject it. Please refer to your internet browser's help section for further information. Please note that some parts of our website may not function properly if you reject cookies.
